

SHIPS THAT PASSED THROUGH THE BROOKLYN NAVY YARD

The following is a partial list of the ships that passed through the Brooklyn Navy Yard. Because literally thousands of ships have passed through the Yard over the course of its history, this list should not be considered exhaustive and will be updated periodically. The ships annotated with "B" in **BLUE** were built at the Yard, while the others may have been at the Yard for other reasons such as repairs, conversion, or to be fitted for naval service. The dates listed are approximate and may refer to a variety of events including launching, commissioning, when struck from the Navy rolls, or final disposition.
